### *Soul Mates - The Chemistry Between You Both*

Above is astrological data for Person A and Person B. This report defines the interactions between the Planets in one person's birth chart and the Planets in another person's. Please note who is 'A' and who is 'B', and then check the Birth Data is correct.

The interpretations mainly focus upon sexual/romantic relationships, but friends, family and even business partnerships can also be looked at.

#### *Key Contacts*

These are usually the most powerful and dynamic points of interaction between you, but do not be put off if you find little or none, as other interactions will provide strong connections. Key Contacts can be seen as: *First, Second and Third Impressions*. The report proceeds with:

*Major Challenges and Strengths, Minor Challenges and Minor Strengths*

#### *The Golden Rules*

When viewing a relationship report, it is important to bear in mind that there will be:-

*Interchangability* - individuals will swap roles in relationships, due to psychological projection, gender roles, individual status and inclination, etc..

*Double Whammies* - when certain interactions are repeated, because that interaction goes both ways it affects the relationship very strongly.

*"Birth Time Sensitive"* interactions, means the interpretation will be correct only when the birth times are accurate to within fifteen minutes. Also, if a birth time is only to within several hours, then any interactions involving the Moon of that person should be regarded as possibly being unreliable.

## *The Chemistry Between You Both*

*No one interaction can make or break a relationship* - In a healthy relationship, there is always a strength to deal with a stress or a strain, through time and love challenges if met, can always be overcome.

### *Key Contacts First Impressions*

#### *\*A's Mars Conjunct B's Saturn*

##### *Hard work*

This is a key contact because the energies of each of you are so different, but can be strangely attracted to one another because of this. One of you, we'll call the 'Martian' is hot, impulsive and boyish/childish; the other, the 'Saturnian' is cool, cautious and adult/mature. Because of these natural extremes, you are liable to bring them out in one another even further. The 'Martian' will become more pushy and impatient, while the 'Saturnian' can become cold and withdrawn. But really there is quite a positive dimension to this interaction if we look at it in terms of 'blade' ('Martian') and 'stone' ('Saturnian'). The 'Martian', rather than feeling confounded and frustrated by the 'Saturnian's' doubts and inhibitions, could see this an opportunity to sharpen their ability to show the 'Saturnian' the exact nature of those doubts and how they might assert themselves more spontaneously. And the 'Saturnian', rather than feeling stiff and awkward, could teach the 'Martian' the value of planning and using time and non-action as instruments for getting what they want. Failing this, things can go from bad to worse. The key-phrase for this key contact is Hard Work. If the 'Martian' works hard at controlling their energies and the 'Saturnian' works hard at releasing them, with each other's help, then both of you will obviously gain. Otherwise it really will be 'hard work', a dead-end case of irresistible force meeting immovable object. Ultimately, all this could add up to a lesson in survival.

#### *\*A's Neptune Conjunct B's Ascendant*

##### *Psychic rapport*

##### **Birth Time Sensitive**

Because, on first meeting, this interaction allows you both to see through each other's masks, defences or smoke screens, the subsequent reaction of each of you can vary enormously. A great deal depends upon what it is that each of you senses within the other person. The chances are that whatever each of you do see will reflect or enhance some highly sensitive issue of your own. Your individual emotional reactions that follow upon this, are what then characterise this interaction, rather than what actually happened in the first place. There are usually two extremes here: one is where a glamorised image or some other smoke-screen is quickly put up in order to protect yourself from the other person's psychic perception of your inner truth. The other extreme is that a great openness remains, allowing a wonderful psychic rapport to manifest between the two of you. This psychic rapport causes you to feel as one, to identify very closely with one another, and to detect at any distance the state of one another. However, it must be pointed out that it only takes one of you to adopt the first extreme in order, sadly, to preclude or at least greatly diminish the second one. And even when the second extreme has been maintained by one of you, the psychic defence screen erected by the other person could eventually become actually

offensive, which would cause the 'open' person to close down defensively too. The outcome here is then a 'psychic war' of projected and imagined fears, which can be quite sapping, physically and emotionally, to both of you. Generally speaking, because most people are not yet prepared to see clearly their inner truth as distinct from their outer display, the remedy to the negative expression of this interaction is not very acceptable. All the same, here it is. If you are experiencing the negative expression, cast your minds back to when you first met, and visualise slowly and closely what actually transpired at that time. If you can do this, without defensively reacting again, you will gain a great insight into the truth of who you both are, as individuals and to one another. This interaction reminds me of the Mayan greeting 'In lak'ech' which means 'I am another (like) yourself'. One way or the other this interaction will bring you both an insight into spiritual reality or the mystery of being. How you respond to this determines whether you experience it as fascination or confusion, identification or alienation, love or hate - or a strange combination of some or all of these.

### *Key Contacts - Second Impressions*

#### *\*A's Uranus Opposition B's Venus*

##### *Excitement before love*

You were probably attracted to one another in a lightning-like, irresistible fashion. However, there could have been a certain sense of difference and distance at first meeting, something which may have taken place in an unusual place or circumstances. However, such is the electro-magnetism between the two of you that synchronicity conspires to bring you together again, seemingly by accident. The sexual dimension is strong between the two of you, but you may even try to resist this too. But again that electro-magnetic attraction wins, and the whole subject of sex and what it implies becomes a major issue, with co-incidence, accident, unusualness, etc. streaking through it. But this is possibly all perennially resisted by one or both of you to a degree where the decidedly disruptive and unstable qualities of this interaction seem to be strangely self-imposed. But then this is life making the point that everything is self-imposed, consciously or unconsciously. And so indeed you are both on a sexual roller-coaster that'll lead you know not where. Socially too, one of you will introduce the other to new ideas and sensations; this could be mutual. But this interaction's intention is to surprise and shock you out of your ruts and awaken you to whatever you need to know next about life and yourselves. And so one of you becomes more aware of what their values and pleasures really are by having them turned upside down by the other, who will just re-throw the dice and hope for better luck next time. As you have probably guessed, this is not a relationship to grow old and grey together with, not unless there other interactions that bestow this, or unless you are both quite kinky or into openly sharing. On this last point, so-called 'open relationships' are more often than not just a reluctance-to-commit posing as 'liberation' - especially on the part of one you.

#### *\*A's Mars Conjunct B's Mars*

##### *Hot! Hot! Hot!*

This interaction had better be sexual, sporting or very active in some way. This is because it could otherwise degenerate into interminable battles as the raw or

competitive energy created by the two of you being together finds nowhere positive to go. This is not to say that it ought to be sexual or physical in some way, but that it has a hard time expressing itself through other channels. One way or the other though, you do test each other's mettle quite frequently; a bit like a game of arm wrestling. If one or the other of you is not very assertive or sure of your act, this interaction should teach you to be so - or you'll get knocked down or pushed around. You over-stimulate one another, which can give rise to the kitchen being too hot to stay in for long. This is more of a bout or match than it is a relationship - because you react rather than relate to one another. If you do both manage to harness this drive, this internal combustion engine of an interaction, then you could achieve a great deal together.

### *Key Contacts - Third Impressions*

#### *\*A's Jupiter Conjunct B's Jupiter*

##### *Moral accord*

Your philosophies and cultural values are probably quite similar. This would allow you to function well together in educational or religious pursuits, or to enjoy travelling and exploring together. A good-heartedness exudes from your being together which is warming and consoling to both yourselves and others. You also share similar ideas on what is right or wrong, particularly in the moral sense. All of this means that you could go far together, but at the same time you are quite generous towards one another, and do not as a rule lay too much claim upon what each of you should do or where you should go individually. At times however, you can try to manage each other and make out that you know what's best for them. Another danger with this generally positive interaction is that you can encourage each other's excesses. But, as a rule, your overall enthusiasm and goodwill tends to make these transgressions acceptable. You could even trim such excesses into something positive.

#### *\*A's Pluto Conjunct B's Jupiter*

##### *Power for the good*

One of you has their beliefs and opinions probed and questioned, influenced and possibly transformed in some way by the other, who would also be inclined to see them as impractical or lightweight in their philosophy of life. But really, that 'lightweight' can shine a ray of hope and goodness into what could be their opposite number's dark and suspicious recesses. Overall this interaction has the potential of deepening and furthering whatever valid convictions either of you have. One of you can spiritually or professionally benefit from any insights or powerful connections possessed by the other, who in return is made to feel less buried and alone by their partner's warmth and magnanimity. If other interactions support or augment this one, you could make a formidable pair in converting the beliefs and ideas of the public at large - and of making considerable amounts of money out of this or some other enterprise.

#### *\*A's Saturn Conjunct B's Saturn*

##### *This relationship is what you make it*

Having this interaction emphasises the importance of making commitments and keeping to them, whether they be to one another or someone or something else. On

the positive side, you share similar ideas of what these things mean, along with status, politics, material stability, and the way of the world generally. However, if any of these issues are ill-founded, then you will reinforce them in each other. This in turn could result in your having difficulties with respect to them. So this interaction is very much a case of what you make it. It is as if you have been given a lump of clay, which you can mould how you both see fit. A sense of constructiveness and order is therefore a prerequisite, while any inclination to just 'see how things turn out' or 'hope for the best' will be met with a diminishing sense of either one or both of you having any solid ground to stand upon. This interaction is rather like knocking two houses together to make a bigger shared living space. This can work very nicely if it is well-planned and there is sufficient harmony indicated by other interactions - but a sheer disaster if not.

*\*A's Saturn Conjunct B's Pluto*

*Power: healing or destructive?*

This is essentially a businesslike contact - literally or figuratively. If other interactions comply or contribute, you can further one another, individually or together, in your careers. Usually, one of you will be the organisational side, and the other will provide the thrust and insight - but these delineations should not be taken too literally, for there should be some crossover of roles. Actually, the ability to interchange and trust, give and take power and position, is very important to your getting ahead and not running into a competition of control and manipulation. Together you can present a formidable front that would impress any group or individual. On the other hand, any power politics that go wrong will give off a decidedly nasty smell. So the good and enlightened management of your unmistakably powerful energy combination is vital. In fact, the clean and upright use of power may be the very thing you use, teach or espouse - or are having to learn through this interaction. On a more emotional level, which may or may not be that obvious with this aspect, One of you acts as a limiting and disciplining influence over any degenerate or wasteful qualities in the other, while they in turn are able to penetrate to their opposite number's secret weaknesses and show them the instability they can cause in their life structure. Again, these roles can be interchangeable. How successful you both are with such manipulation of your respective inner workings depends greatly on that trust-building and the debugging of any potentially suspicion-producing elements.

*\*A's Uranus Conjunct B's Uranus*

*The call of the new?*

This interaction is generational and so its significance for you as individuals depends upon what other interactions you have that dispose your relationship towards the unconventional, exciting, unpredictable, open, liberating, forward-looking, detached, alternative, etc. If this is the case, then this interaction is saying that such qualities are central to your being together. On a purely generational level, you were both born and grew up in a time that saw the same technological advances and changes in social or political values.

*\*A's Neptune Conjunct B's Neptune*

*Cultural compatibility*

This is a generational contact, meaning that you are more or less the same age and therefore have been subjected to similar cultural, spiritual and musical influences in your lives. Such acts as a general underlay of compatibility in these respects.

#### *\*A's Pluto Conjunct B's Pluto*

##### *Possible intensity*

This is a generational contact, meaning that you are more or less the same age and therefore have been subjected to similar psychological, political and global changes in your lives. If there are a number of passionate or obsessive contacts between the two of you, this would make it all the more so because your social environment would encourage same.

#### *Major Challenges*

#### *\*A's Sun Challenging B's Saturn*

##### *Two rulers*

You are inclined to trigger each other's doubts and defences - so this can prove a difficult aspect to your relationship. It is rather as if one of you is the 'monarch' and the other is 'president/prime minister'. You both have or want a sense of power and position, and feel that the other threatens it in some way. The 'monarch' is brighter and more outgoing in the use and expression of themselves and their way of life. The 'president' is more conservative, traditional, and toes some sort of party line. Possibly the common ground that you do have is one or each of you wishing to maintain your individual integrity. And so it would be fruitful to earn each other's respect through showing that you both stick to your principles - even though they are very different - and defer to the other if they have honourably proved their point. All this will take time, which poses the necessity of there being a commitment to a duty that goes beyond your ego conflict - like being parents, for example. Basically, a balance needs to be struck between the 'monarch's' expansive and generous nature, and 'president's' restraining and cautious one. You both have an important contribution to make to whatever is the substance of your relationship, but the 'monarch' is being forced to learn that restrictions can have great value, and the 'president' to trust that matters will unfold creatively and should not be controlled too much. Failing to understand these apparently opposing laws of good 'government' can cause one or both of you, or the relationship itself, to fall from grace.

#### *\*A's Neptune Opposition B's Sun*

##### *Karma and drama*

Although this is an interaction that has misunderstanding and delusion built into it, there is also a strange link that is possibly created by the fact that the personality of the first person is a polar opposite to the second - and opposites attract. The first person is bright and outgoing and set upon creating an impression, proving a point, and being seen to be important. The second person, on the other hand, is mysterious and diffuse, passive and evasive. And so the two of you play out this union of opposites. Positively, you can both tune into the ethereal and theatrical, the musical and romantic, feeding each other's dreams and fantasies. Negatively, the second

person is inclined to dodge and deceive in the face of what they feel to be the first person's glaring and invasive ego as it attempts to pin their opposite number to the wall, spotlighting their weaknesses. They then respond with more evasiveness and fabrication as they reel against their delicate feelings being thus assaulted. And both the roles are very interchangeable. If there are other interactions which bestow some respect and decent communication, the two of you may eventually tune into the fact that you are both not only as sensitive as one another, but that you also have similar difficulties expressing or protecting that sensitivity. This is, after all, a psychic interaction, and if paranoia can be avoided on one or both of your parts, then a subtle and curiously strong bond can develop. Having said this though, there is always the chance of some hidden hurt slipping in or of a mutual blind-spot being encouraged, thereby sabotaging that bond. This interaction very much depends on respecting each other's emotional wounds and the sensitivity that attracted them or the distressed circumstances that inflicted them.

#### *\*A's Sun Challenging B's Pluto*

##### *Regeneration or destruction*

There is probably a great intimacy between the two of you, but this in itself becomes a problem, especially if this is a sexual relationship. In fact the sexual dimension is the main area of conflict and power struggle, and consequently where your relationship could come to grief. At first the feeling of being invaded and taken over is sexually attractive. But eventually one or both of you feels laid bare and robbed of their own will. One or both of you is also rather like a moth drawn to a flame, but the intensity of such a pull can be interpreted as being deliberately forceful - and it may be. In any event, this interaction demands that both of you attain a more conscious awareness of the powerful effect that you can have on others generally, and on each other in particular. It may come as a surprise that every human being has this power potential in them but it takes this kind of interaction to spell out what kind of influence this can exert. So this intense and powerful contact is all too often destructive in some way, either partially or of the whole relationship. Basically, it is manifesting the dangers of any negative course either of you have set out upon - probably quite unconsciously, and possibly before your relationship even started. Underhand or morally questionable motives on the part of either of you are inevitably brought to a point of crisis. Whether or not you survive such a crisis as a couple, there is still a deep and lasting effect and lesson built into this relationship.

#### *\*A's Moon Challenging B's Mars*

##### *Fire and water*

If in close proximity for any length of time, you will bring out the worst in each other: in the one of you, over-sensitivity born of childhood and past experiences; in the other, residual anger and desire to get and act in spite of circumstances. It could well cut both ways. If you are contemplating getting together for a protracted period, be warned and give yourselves a trial period with 'get-out clauses' - or just back off altogether. Barbed remarks and acutely hurt feelings having already arisen would be a danger sign here. If you are already in such a situation it is because your respective unconscious minds deemed it necessary. This means that you both had to become more aware of your emotional fears and impulses, and these very things drew you together. So it is a case of the fat being in the fire. Ideally, and put simply, one of you

probably needs to toughen up a bit and not be so phased by the slings and arrows of emotional life - or alternatively, not be so comfy or complacent. Equally, the other person had best get in touch with their anger and the reasons for it in some way other than using their partner as a punch-bag. Again, these roles could alternate. Both of you, if you value your relationship or yourselves at all, may well need to seek professional help in dealing with your respective emotional difficulties. Two hurt children are only too able to hurt one another - and other children, perhaps your own.

#### *\*A's Moon Challenging B's Saturn*

##### *Negative backgrounds played out*

This is a highly unsympathetic interaction, even though one of you, the 'lunar' person, may at first feel some of other, 'saturnine', person's pain. The two of you probably came together for reasons of sex or security - which, when you think about it, could include a family relationship. But as time goes by it becomes apparent that there is a no-go area between the two of you - rather like a patch of black ice. If, for some reason or other, you are initially reluctant to engage it is probably because of an instinct that senses this 'black ice' and so you avoid coming any closer. If this is not the case however, the 'black ice' can create quite a cold and uncaring feeling between you that can eat away like a cancer at the rest of the relationship. The reasons for this are most likely ingrained fears and inhibitions on the 'saturnine' person's part, and previously unmet or indulged childhood needs on the 'lunar' person's. In other words, negative parental conditioning is dragged to the surface and reiterated under this aspect. The 'lunar' person can play out the fearful side of their mother, while the 'saturnine' one expresses their father's doubts. This mixture, unless you are prepared to go to great effort and depth, is unfortunately separative. Nonetheless, it does teach you this important lesson because that was what was there to be learned. It also goes some way to teaching you both the value of caution.

### *\*A's Mercury Challenging B's Jupiter*

#### *The general versus the particular*

There can be a lot of talk but possibly not much achieved between the two of you because one person, the 'thinker' is concerned with details whereas the other person, the 'philosopher' is more interested in an overall view of things. The 'philosopher's' generalisations or religious concepts frustrate and annoy the 'thinker's' more practical, logical approach. The 'philosopher's' great plans confuse the 'thinker's' work and everyday concerns, which to the 'philosopher' seem piffling and short-sighted. If you could both appreciate that you are each seeing opposite sides of the same coin, then something useful, and inspiring too, could be the result. The 'philosopher' could help the 'thinker' to see the bigger picture and gain a better understanding of how their thoughts and ideas can fit into a greater whole, while they in turn can assist the 'philosopher' in practically, technically and verbally expressing their grand ideas. Other interactions that you have could indicate whether or not you have the emotional harmony to come to this sort of mental agreement.

### *\*A's Uranus Opposition B's Mercury*

#### *Mental stimulation or disruption*

Someone once said that intuition when it works is brilliant, and when it doesn't is sheer stupidity. This interaction embodies this statement because one of you is stimulated and impressed by other's brilliant insights and the new avenues of thought that they bring, but is frustrated and disdainful when any such ideas prove to have no practical substance. What is more, the second person can in this way be disruptive to first's day-to-day mental functioning - in their workplace, for instance, but possibly giving them a needed jolt in this area. From the so-called 'disruptive' or 'spacey' person's point of view, their opposite number can appear to be slow and pedantic as they seek to find a logical explanation for everything. But all this is really just the mental flak that is a necessary part of clearing out old, impractical or biased ideas in both of you. See past this flak, and your mental interaction can produce quite enlightening and amusing, if sometimes crazy, material. You certainly spark one another off.

#### *The road of excess*

On the face of it you have, or could have, a high old time, for this makes for a pretty indulgent and hedonistic coupling. You encourage one another to seek pleasure and excitement, which although this may come under the heading of sowing some wild oats, does find you frittering away time, energy and/or money. Apart from someone having eventually to pay the piper, or watch their waistline, it can also be an imposition on others who have more serious things to do. There is also an easy-come-easy-go feel, which can be quite upsetting to one of you if they have more earnest expectations of the relationship. Usually, it is the urge for freedom and experience of one of you that can hurt and offend the sensibilities and desire for companionship of the other. Moral issues come to be a major consideration, sooner or later.

#### *Major Strengths*

*Social desirability*

Being together brings out a heightened sense of fun and harmony. Not only that but you find each other attractive in an easy sort of way. There is a great deal that you readily agree upon, and so others like to be around you - be they friends, children or business associates. There can even be a feeling of wealth about you that may very well attract that very thing if other interactions support this. Hopefully there are dynamic and challenging aspects between you that drive you to achieve something, because this interaction can incline you to being a bit lazy, even complacent. But apart from that, you have a delightful and enjoyable chemistry, that graces any situation, but especially social gatherings such as parties.

*True and mutual generosity*

This interaction is bound to give rise to, or at least coincide with, personal advancement in the lives of both of you. The hallmark of this excellent aspect is that you help one another to improve your personal lots in a way that is altruistic. There is no thought of doing what one of you does for the other as requiring or deserving any sort of 'payment' - although one paying the other for something to help them out is a good example of the generosity that this coupling engenders. This is all the more significant when considering that it is not just the individual ambitions of each other that you each assist, but rather something for the both of you. Of course, it could be said that what helps the one in a partnership also helps the other, and indeed this is the essence of such a coupling - but in a more far-reaching way that either of you may yet appreciate. This interaction is all about prospering and growing - but in a wonderfully impersonal way. So this aspect of your relationship is a real gift, a boost to, or restoring of, a belief that life is something great, holy even. You also make good travelling companions for you believe that the road (of life) will take you where it will - together or apart, as you have a respect for each other's freedom.

*\*A's Pluto Supporting B's Sun*

*Mutual empowerment*

One individual benefits greatly from the other's insights or resources, while the other is given much needed confidence by the first person's convincing appreciation or admiration of those very things. Together you can be the new broom that sweeps clean, clearing away obstacles to your progress and well-being, either individually or as a couple - or even for the area of society in which you operate. This is a mutually regenerative relationship, and other interactions considered, can make for a longstanding and self-renewing partnership. With the support of similar interactions, great wealth and/or power can be attained. In any event, you will both be the better for knowing one another.

*\*A's Jupiter Supporting B's Moon*

*Care and consideration*

There exists a 'good feeling' between the two of you. This has its roots in the fact that you mean each other no harm at a deeply instinctual and moral level. Put more

positively, you are generous and considerate towards one another, and genuinely care what becomes of each other. Together you are in touch with some of the best of human nature. You nurture or encourage each other's development, be it emotionally or materially, mentally or spiritually. Obviously, this interaction goes a long way towards sorting out or preventing any strife or misunderstanding caused by other interactions. In fact, owing to the passivity of this interaction, it may well need some kind of challenge - from within or without your relationship - to call it into being. Such kindness that you create and have between you will also be of inestimable value in looking after or teaching others.

*\*A's Ascendant Supporting B's Moon*

*Emotional ease*                      **Birth Time Sensitive**

There is a comfortable feel between the two of you provided by this interaction, but it is quite mild in its influence. So it will augment other harmonious links between you, but would do little to withstand or ameliorate deeper conflicts. Be that as it may, you do find that your feelings and attitudes fit well together. This would also mean that your timing was quite good, with you being in the right place at the right time for each other, and in relationship to circumstances around you.

*\*A's Mercury Supporting B's Mercury*

*Intellectual accord*

You get along much as siblings who have a healthy relationship would. The flow of ideas and how to verbally express them comes easily to you both. The actual nature of your easy discussions though, depends upon other interactions that you have between you. At one extreme, if yours is an intensely emotional relationship then your conversations will be rich and rewarding as you readily gain mental understanding of all that flows between you. At another extreme, where say you do not quite hit it off emotionally or physically, conversation can be easy but does not seem to get anywhere in particular, for you are able to talk almost for its own sake. Possibly, a working relationship is where most advantage can be drawn from your basically good communication.

*\*A's Venus Supporting B's Mercury*

*Friends and lovers*

Both of you have a liking for the same people and pursuits, and have similar tastes. This goes a long way to ensuring a lasting interest and harmony between the two of you, and you are well able to have fun and be creative together. This interaction especially favours any joint artistic endeavours, either as a pair or with one of you being in an advisory role. You are in tune with one another. Most significantly though, the emotional and intellectual accord of this interaction enables you to see your way through to harmony and agreement even after the most severe conflicts. This is owing to your mutually creating an ongoing sense of what is good and decent about being human, and so co-operation leads to greater harmony, which in turn leads to more co-operation, and so on. You both profit from the simple activity of discussing your likes and dislikes, rather than expecting to either know them already, or assuming that they should be identical.

*\*A's Mercury Supporting B's Mars*

*Getting it on*

This is very much a 'get up and go' interaction for it enables both of you to transform thoughts into deeds. Rather than leave something to go to seed, you are inclined to thrash out the best way of achieving an objective. You like locking horns in that mental competition comes naturally to you as a healthy means of keeping sharp and effective. If yours is a sexual relationship, you both appreciate the fact that the brain is the most erogenous zone of all, for sexual ideas and verbal interplay turn you both on. You make a clever team, and others are aware of this mental accord and instinctively steer clear of taking you on as a couple - or they best be advised to. So this is a very dynamic interaction, but with a minimum of friction (notwithstanding other more challenging interactions), which is often based upon the one of you being the ramrod, forcing ideas into action, while the other plots the best way of going about it. However, these roles can be interchangeable.

*The problem solver*

Whatever else might be going on between you, this interaction provides you with a combined mental awareness of new ways of seeing things, and consequently new ways of being and doing too. What's behind this mental awareness is a brilliant, almost telepathic, communication. It has been said that if we were telepathic as a race, then all our problems would cease to exist. The reason being that we would always know what someone really meant, and also when someone was lying. Such mental accord, of which you have some measure, can overcome or actually prevent disagreements and misunderstandings. One could call this interaction 'The Problem Solver', as you free each other from whatever veils have obscured your perception of how things really are. You may even extend this mental tool to help others as well.

*\*A's Venus Supporting B's Mars*

*Venus and Mars are alright*

This is an accurate but low-powered dart from Cupid. You are sexually or socially attracted to one another, but unless there are other more urgent interactions, you are not going to plunge in on the strength of this one alone. A curious thing that comes into focus when studying relationships with astrology is that it is the 'noisy', jagged or sharp-edged feelings that propel us into relationship rather than the gentle, well-modulated kind like this one. The latter are what are (sometimes sorely) needed once a relationship is off the ground. So whatever the case, there is a pleasant spiciness to being in each other's company. This interaction also contributes to any involvement you might have in the creative or performing arts. One to one, the gentler of you can show the other how to be more gracious and stylish in how they conduct themselves socially or go about getting what they want. On the other hand, the more assertive of the two of you can bring the other out of their shell and get them to realise their worth or charm.

*\*A's Venus Supporting B's Uranus*

*Love and duty*

Love and freedom coexist relatively easily, so this interaction is non-possessive - or at least, it diffuses any other indications of jealousy. There is a friendliness between you if you are lovers, and you are loving if you are just friends. One of you really appreciates and is turned on by the other's unusualness, causing them to depart from their usual social or sensual style. This can actually cause fluctuations in this person's affections however, as they swing back and forth between their old and new values. To the 'unusual' person, their partner is the perfect playmate, as they seem able to pick up on their odd or intuitive ideas - particularly in the sexual department - as well as being excitingly unpredictable. Not surprisingly, such an interaction is a little too open or loose to ensure fidelity and durability, but it is extraordinarily pleasurable. If you are involved artistically in any way, this gives a zing of originality to whatever you create.

*\*A's Uranus Supporting B's Mars*

*Forever young*

Between the two of you much can be achieved that will make you feel more as individuals in your own right. So paradoxically, this interaction inclines towards a certain 'looseness' rather than closeness. A great deal depends upon other interactions and your personal attitudes towards relationships, but ultimately this interaction is saying that you can both follow your own stars and not jeopardise what you have between you. In truth, you actually make your feelings towards one another all the more positive - simply because it is evident that you trust those feelings. So there is a youthful and friendly flavour to your partnership that frees you from restrictions and the limiting ideas of life and love that created them in the first place. Very refreshing - and can be quite sexy in a breezy sort of way! Whatever the type of your relationship, you strike a blow of freedom, and maybe not just for yourselves.

*Mutual empowerment*      **Birth Time Sensitive**

One person makes the other person more deeply aware of how they express themselves physically, how they appear, etc. However, because first person's effect is

deep, such an effect may not be immediately noticeable, but the feeling that the second person experiences upon first meeting the other person is felt to be significant in that something 'moves' inside of them. How they continue to respond to such a movement will depend greatly on other interactions between the two of you. If the first person is aware that they do have this influence, then they can help the other to become more aware of the hidden side that lies behind the outer façade, not just of themselves but of appearances generally. The first person, in return, can feel pleasantly conscious of how they are able to penetrate to the core with both ease and intensity.

### *Compassion and Goodwill*

At a very basic level you have spiritual compatibility. This means that as human beings you are always human towards one another in that you maintain a certain gentle tolerance and respect. Friends and associates will pick up on this harmonious vibration - possibly quite subliminally - and like to be around you, or even seek your help and sympathy in times of trouble. How much you make out of this, or do not, is the question. On the one hand, such passivity is developing towards something all on its own peaceful accord. On the other, it can cause you to just coast along in a nice but somewhat ineffectual fashion. Ideally, if you are both evolved to some degree spiritually, then you can 'use' this spiritual energy to achieve greater good. Compassion and goodwill, are, after all, the basic ingredients of this basic compatibility.
